Intuity®

SHAPING THE FUTURE ORGANIZATION.

Many organizations are faced with the task of optimizing the footprint—without overcrowding. At the same time, there is a drive to embed collaboration and creativity throughout. Intuity benching is designed to address each of these needs beautifully.

Intuity makes it easy to establish an environment that inspires and engages, and assumes that collaboration is the natural order of business. More than a product, it's a new way of looking at how people work.

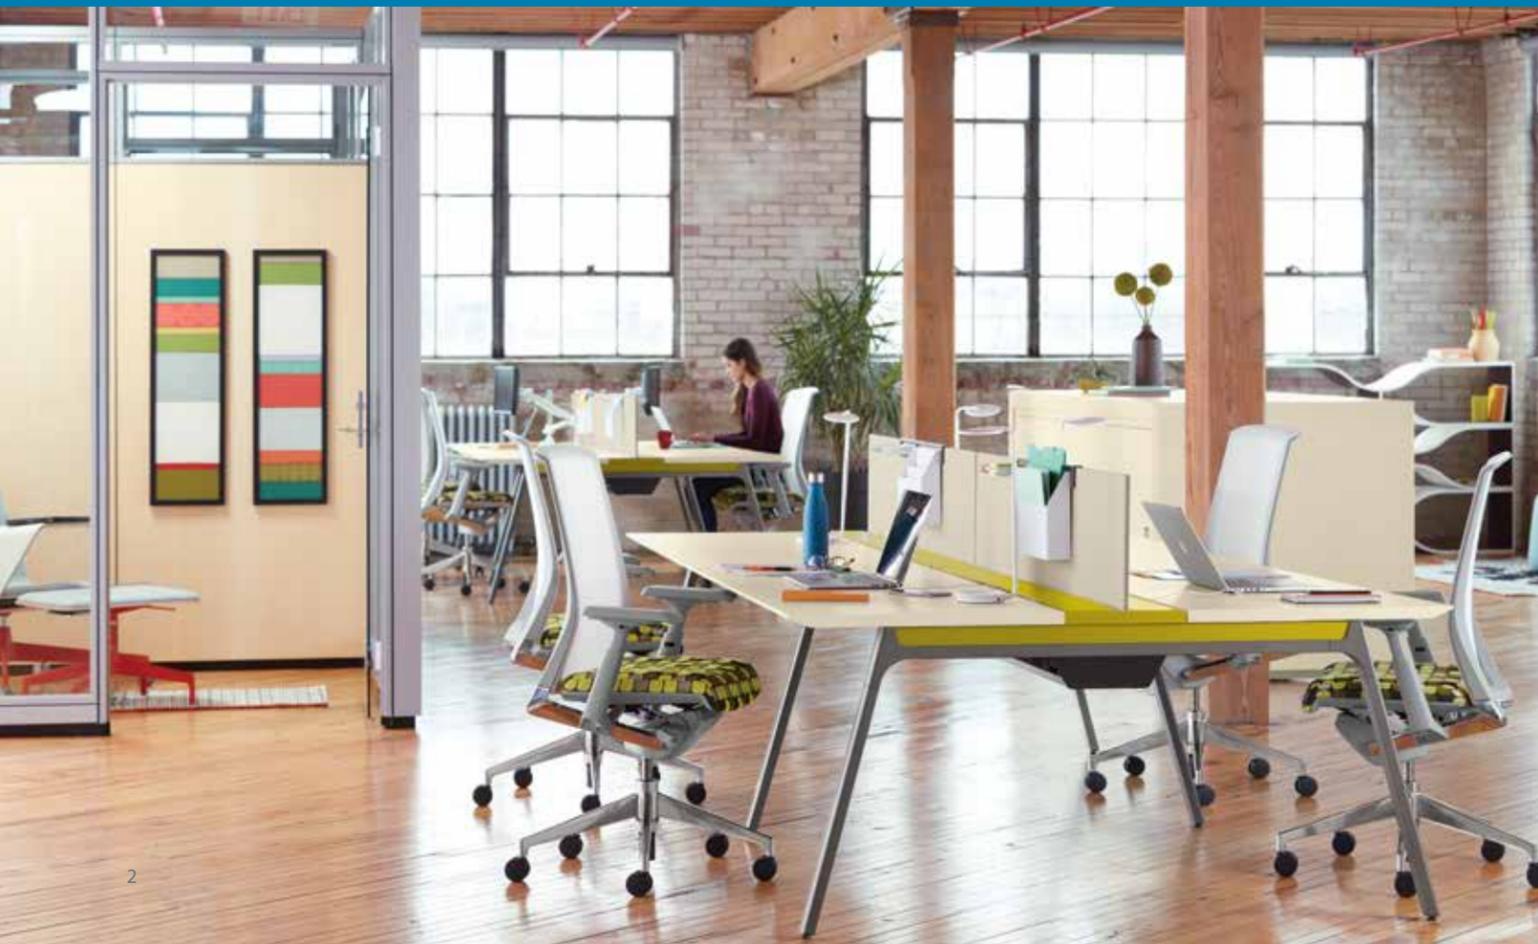

STRATEGIC ESSENTIALS FOR NEW ENVIRONMENTS.

Research has identified three design elements of environments that encourage performance and contribute to a culture that's open to embracing new ideas. Intuity helps make all three possible.

1. **Touchdown** stations help mobile workers feel welcome and productive when they arrive on site.
2. **Collaborative** work areas bring teams together to share ideas organically throughout the day.
3. **Recharging** spaces give people a place to reconnect and plan for what's next.

By promoting a positive organizational culture and brand, Intuity also contributes toward strategic goals of attracting and retaining top talent.

VISUALLY UNIQUE. THOUGHTFULLY ENGINEERED.

Intuity sets itself apart by channeling a personality from playful to polished, with a blank canvas aesthetic that you can make your own. What's more, the light scale complements today's open, airy environments. Technology hatches are front and center—without intruding into the worksurface—to give everyone easy access to the tools and resources they need throughout the day.

A simple, global platform. Easily create a dynamic, collaborative environment—Intuity benching is simple to specify and install, and allows you to add and adapt as you go, without interrupting existing workspaces. Like other Haworth products, Intuity integrates aesthetically and physically with a wide range of workplace solutions, giving you a single source for the entire floorplate. At the same time, Intuity is designed to a global standard, ensuring consistency and adaptability everywhere in the world you do business.

Beauty in simplicity. In addition to a streamlined design, Intuity is easy to specify, install, live with and change.

Flexible technology access. Hatches can be fully open or split as needed to maximize the work area.

Evolve without interruption. Shared legs and nonhanded worksurfaces make changes and additions easy, without disrupting existing workspaces or workers.

Exceptional design freedom. Choose materials and colors for surfaces, legs, hatches, divider screens and more—all to bring your vision to life.
